

Connecting Identity.
Transforming Digital Business.

Hybrid Identity Management

ONE IDENTITY PLATFORM TO QUICKLY INTEGRATE TRUSTED IDENTITY AND ACCESS
MANAGEMENT INTO CUSTOMER, CITIZEN AND WORKFORCE APPLICATIONS.

Enabling the future of Digital Identity

Customer IAM (CIAM) + Legal Entity Identifiers (LEI)

European-focused identity services provider

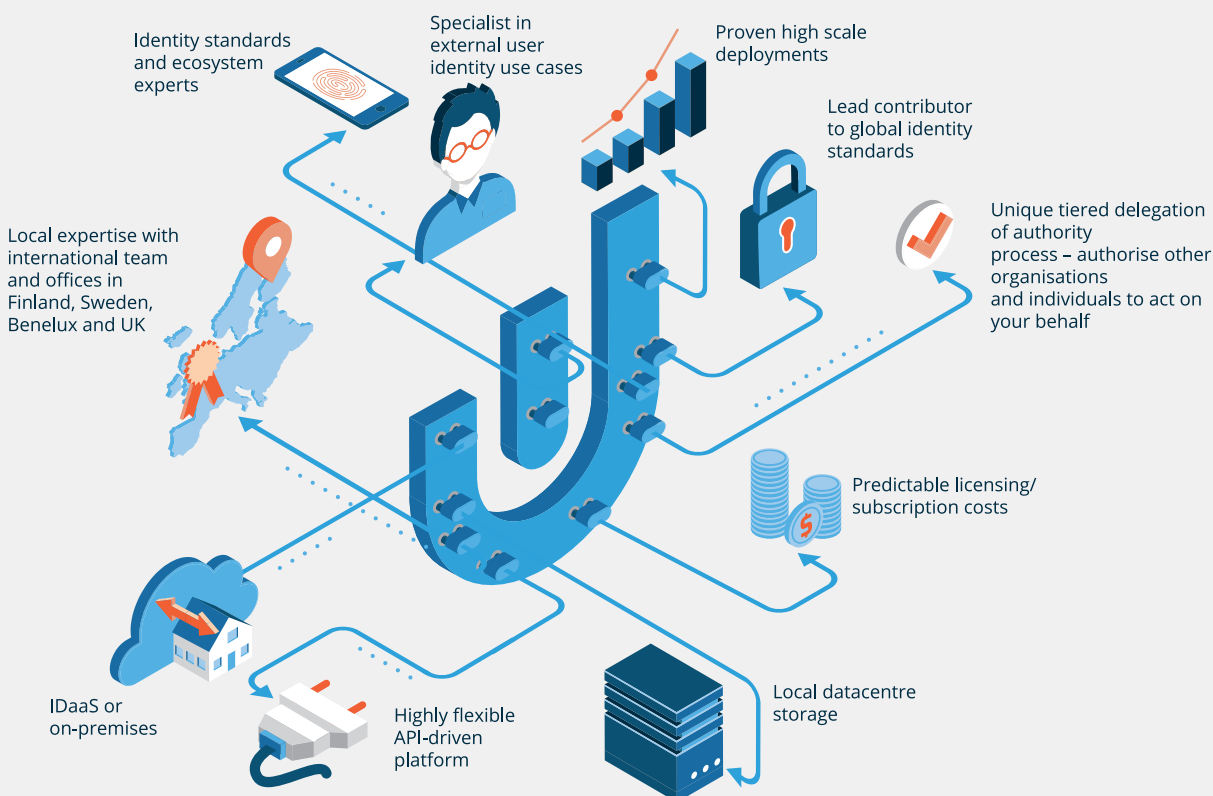

With our origins in the Nordics and over a decade of involvement in European-specific digital identity initiatives, we remain focused on helping organisations protect identity data and benefit from the European identity ecosystem.

Our regional presence means Ubisecure's experts are easily available when needed, and data residency requirements can meet country-specific geo-regulation.

Delivering B2C, B2B, G2C & workforce identity use cases

- Proven Identity Platform with IAM capabilities for customers, citizens, workforce and organisation identity management
- A recognised history of security, innovation and successful national-scale deployments
- Deep expertise in European identity ecosystem, and well-established Nordic leadership position
- Pan-European Certified Partner network
- Simple subscription model, transparent values, and easy to do business with
- Servicing 200k organisations, and 3 of the top ten Global Banks for organisation identity as the #1 Legal Entity Identifier issuer worldwide

The future is CIAM + LEI

Giving organisations the ability to combine strongly authenticated individual identities with highly assured organisational identities to show who you are, who you represent and the rights you have to represent them.

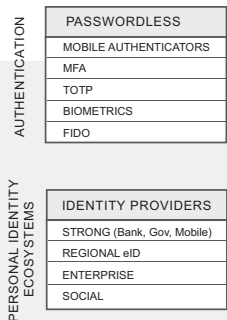

Managing the verified organisation identities of over 200k legal entities allows Ubisecure to combine our CIAM and LEI services to deliver Right to Represent services for true B2B IAM.

Enable Identity-centric Zero Trust architectures

The Identity Platform offers a “configure-not-code” approach to help organisations avoid the time, cost, and risk associated with building and operating in-house identity management solutions. Data residency remains within your control with flexible cloud (IDaaS), on-premises or hybrid deployment for identity-centric Zero Trust architectures.

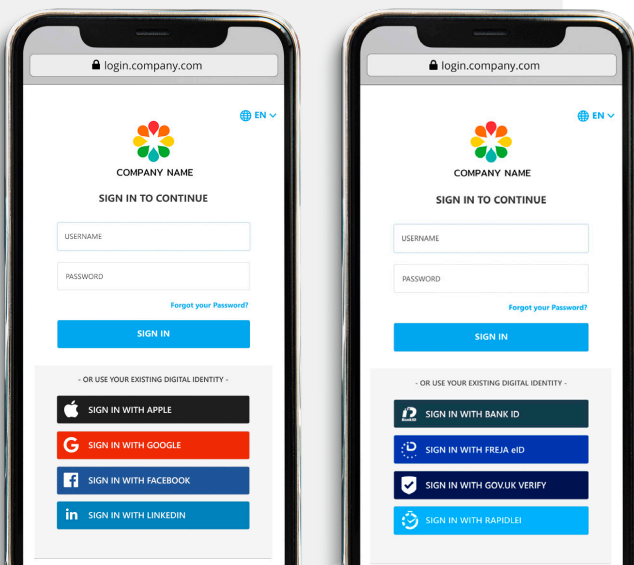

ORGANISATIONS USE THE IDENTITY PLATFORM TO QUICKLY IMPLEMENT USE CASES LIKE SINGLE SIGN-ON (SSO), STRONG CUSTOMER AUTHENTICATION & MFA, PASSWORDLESS, ACCESS MANAGEMENT, IDENTITY RELATIONSHIP MANAGEMENT, AUTHORISATION & CONSENT POLICIES, LOGIN-AS-A-SERVICE, AND KYC/ONBOARDING.

Giving organisations access to the rich digital identity ecosystem

Out of the box support for a broad range of reusable Digital Identities to enable real time identity verification and proofing, including Bank IDs, EU eIDs, mobile IDs, enterprise and social identities.

Organisations have utilised reusable Digital Identity to reduce admin costs by 99%. It also provides the foundation for efficient, privacy-enabled and user-friendly authentication, registration and recurring login experiences (including SSO).

UBISECURE'S IDENTITY PLATFORM HAS HELPED US REALISE A UNIFIED IDENTITY SOLUTION FOR BOTH CONSUMERS AND CORPORATE CUSTOMERS, CREATING AN ENVIRONMENT WHERE YOU ONLY NEED ONE IDENTITY.

Taneli Ropponen, Director of IT Production, DNA

MYACCOUNT IS THE COUNCIL'S ONLINE SERVICES FOR RESIDENTS. UBISECURE HAS PROVIDED CAPABILITIES AND FLEXIBILITY THAT ARE INTEGRAL TO A POSTIVE CUSTOMER EXPERIENCE, AND WILL CONTINUE TO BE A KEY PARTNER IN ONGOING DEVELOPMENTS TO ENHANCE THE SERVICE FURTHER.

Phil Newberry, Digital Strategy Manager at Brighton & Hove City Council

THE TELIA IDENTIFICATION BROKER SERVICE IS ONE OF THE FIRST SERVICES OF ITS KIND, SO IT WAS VERY IMPORTANT TO WORK WITH AN IDENTITY EXPERT THAT WE KNOW AND TRUST. UBISECURE FITS THAT BILL, AND I AM EXTREMELY PLEASED WITH OUR COLLABORATIVE RESULTS.

Joni Rapanen, Global Product Manager at Telia Company

Hear from our Customers

Ubisecure is a Europe-based Identity & Access Management (IAM) specialist and offers a comprehensive identity management platform deployed as IDaaS (Identity-as-a-Service), hybrid or on-premises software.

We provide a single platform that enables high-assurance, cross-border interactions, with the focus on reducing fraud and avoiding data breaches by successfully converging identity and access security to deliver better user experiences.

We are also GLEIF-accredited to issue Legal Entity Identifiers (LEI) via our RapidLEI service and have quickly become the global #1 LEI Issuer both in terms of volume and data quality. RapidLEI has issued verified organisation identities to over 150k organisations worldwide.

Our mission is to help enterprises embrace the global digital identity ecosystem, improve operational effectiveness and build trusted business relationships.
